

PROJE HAKKINDA

We would like to provide our students the chance to use the English language in practice. Also, students will have the chance to develop their communication skills using various ICT tools. Every month all the members will share an activity related to teaching English and applied in her/his own classroom or online lessons. Then they will share their works on the twinspace. As a result, we will give our students the chance to practise their English in different activity and hopefully have a lot of fun! We hope they will learn English in a fun and interactive way.

HEDEFLER

Our aims for students are :

- to increase the pupils' motivation towards English.
- to prepare an entertaining learning atmosphere.
- to increase participation to English lesson.
- to improve students' abilities using ICT tools and to teach and practice English with Web2 tools .
- to develop their 4 skills. Reading - Writing- Listening - Speaking
- to develop their vocabulary skill
- to enable the students to get to know their peers from other European countries
- to create curiosity about other European countries

Our aims for teachers are :

Teach the children the English language as a second language and use the ICT tools in classroom. Also practice the cooperation between teachers from other countries.

ÇALIŞMA SÜRECİ

February: Finding partner schools

Preparing logo

registerin the students

uploading the first activities

March: Uploading the second activities

April: Uploading the third activities

may: Uploading the last activities and evaluation of the project

june: applying to quality label

BEKLENEN SONUÇLAR

We anticipate our students to:

- be more motivated to learn English
- have fun and learn willingly English
- improve their vocabulary and the four skills of the language
- have more self confidence because pupils have active role during the project.
- improve their communicative and ICT skills
- learn more about similarities and differences in European countries
- encourage their friends at school to participate in eTwinning projects
